Electrical Service Information

Founded by Mike Gray, a Master Electrician, Industrial power has become one of the best know and most respected electrical service company's in the business, With field services backed up with I.P.I.'s extensive fabrication shop, no job is too small or too large for Industrial Power Inc.

The fabrication shop gives I.P.I.'s electricians the ability to custom make any bracket, mount or enclosure or bend any angle needed to make the connection.

IPI can also program many different drives, such as Allen Bradley, Siemens, Yaskawa, Baldor and Reliance just to name a few.

If you requirements are not common canned programs, I.P.I. can work on creating one to meet your specific needs.

We have completed electrical shut down jobs that reached in excess of \$1,000,000.00, however our average jobs run around \$200,000.00. With larger jobs, we may hire additional electricians or do sub contracting however, IPI will retain ownership of all sub-contractors out put.

I.P.I.'s competitive travel rates cover all of our expenses, so there is no hidden cost. We can help with shut down jobs, adding new equipment, moving old equipment Also, we can do complete building wiring on new construction or refurbishing the exciting.
